

## MAP Growth Reports

February 2018

Facilitated by Sherry Betcher  
Academic Performance and Accountability Unit  
[sbetcher@thecenterforcharters.org](mailto:sbetcher@thecenterforcharters.org)

### Learning Objectives:

- Access, interpret, and apply MAP growth reports
- Evaluate growth as a catalyst for change
- Enhance Assessment Literacy

Use this packet to make notes about the takeaway lessons from this session. What do you want to remember? Write it here. If a visual pops into your mind, sketch it here. When a question springs to mind, write it down before you forget it.

This is your opportunity to create your own handout with the key takeaway points that are most relevant to you and your work.

### Do Now

- Directions: At your table – define each term individually or as a table group.
  - Typical Growth
  - Catch-up Growth
  - Accelerated Growth
- Post your definitions for each term here: <https://goo.gl/JDzAuB>

## Growth Types

### Typical growth

The \_\_\_\_\_ of the RIT **growth** that was **observed** in the latest NWEA \_\_\_\_\_ study for students who had the \_\_\_\_\_ starting RIT score in the \_\_\_\_\_ grade in the \_\_\_\_\_ testing season.

### Catch-up growth

The RIT growth \_\_\_\_\_ for a student who is \_\_\_\_\_ proficient to become \_\_\_\_\_.

### Accelerated growth

The RIT growth that allows an already \_\_\_\_\_ student to grow \_\_\_\_\_ proficient levels.

## MAP Growth growth reports

Student Goal Setting Worksheet, Student Progress Report & **Student Profile Report**- A student view

Please explore the **Student Profile Report**.

1. What is the student's name you're chosen to explore? \_\_\_\_\_
2. What are some of the data points that are included on this report?  
\_\_\_\_\_
3. What are some things you might do with this report?  
\_\_\_\_\_
4. Does this student have a Relative Strength? \_\_\_\_\_
5. Does this student have a Suggested Area of Focus? \_\_\_\_\_
6. What is this student's typical growth projection? \_\_\_\_\_
7. What type of growth goal (typical, catch-up, or accelerated), *and* how many RITs, would you set for this student? Ex. Accelerated growth goal for 14 RITs  
\_\_\_\_\_
8. What are some of the reasons you chose this particular goal for this student?  
\_\_\_\_\_
9. How might you might explain the data on this report to this student?  
\_\_\_\_\_  
\_\_\_\_\_

**Achievement Status and Growth Summary Report- A class view**

	Name	First Term RIT Score	Second term RIT Score	Met Projected Growth	Conditional Growth Percentile
Student with the highest RIT score					
Student with the lowest RIT score					

1. Complete the above chart.
2. Did the above high and low students meet their growth projections? \_\_\_\_\_
3. How might you discuss this with each student?  
 \_\_\_\_\_  
 \_\_\_\_\_
4. What percentage of students met or exceeded their projected RIT? \_\_\_\_\_
5. How many students met or exceeded their projected RIT? \_\_\_\_\_
6. What observations can you make regarding the growth and achievement levels for the class?  
 \_\_\_\_\_  
 \_\_\_\_\_
7. What type of growth goal would you set for this class (typical, catch-up, or accelerated)? \_\_\_\_\_
8. What percentage of students *should* meet or exceed their projected RIT? What percentage would be a reasonable goal for a class or grade level? \_\_\_\_\_
9. Which of my students are gaining ground?  
 \_\_\_\_\_
10. Which of my students are losing ground?  
 \_\_\_\_\_
11. Are students gaining ground at a rate that will close the achievement gap? \_\_\_\_\_
12. What further type of exploration might you want to do?  
 \_\_\_\_\_  
 \_\_\_\_\_

Student Growth Summary Report- A **schoolwide** view

1. Which grade has the highest percentage of students who met projected growth? \_\_\_\_\_
2. Locate the Observed Growth and Projected Growth for each grade level. How did each grade level perform when comparing these two data points?

---

---

3. Locate the Percent Met Projection column. What information does this tell you?

---

---

4. What information does the graph represent?

---

---

5. What might be some patterns or differences do you notice among grades?

---

---

6. In what ways might this data be used with other school/class assessments?

---

---

7. What are some ways you might use this data to guide school improvement planning and goal setting for the schools, classes and students?

---

---

8. What other questions does this information raise?

---

---

9. What type of growth goal would you set for your school (typical, catch-up, or accelerated)? \_\_\_\_\_

10. What might be a few possible next steps for you now that you've analyzed this data?

---

---

**☐ Draft SMART Goals**

<b>S</b> trategic & Specific
<b>M</b> easurable
<b>A</b> ttainable
<b>R</b> esults Oriented/Relevant
<b>T</b> ime bound

Example goal: 70% of all of our 4<sup>th</sup> grade students will meet or exceed their individual growth projections in Reading as measured by fall and spring MAP results.

Identify each component of this S-M-A-R-T goal.

Your turn! Set a schoolwide, grade, class, or student goal. Use your MAP data along with what you've learned today to set the goal.

**☐ Develop an Action Plan to Attain Your Goal**

Determine how the school, grade, class, and/or student will achieve the goal. Remember, average teaching leads to average growth. What will you do *beyond* typical?

---

---

---

---

---

---

---

---

**Freestyle notes, questions and pictures**
