Scholastic Aptitude Test (SAT)

Achievement

SAT (grade 11) in Evidence-Based Reading and Writing (EBRW) and Math help us measure whether students are 'on-track' towards college readiness. The percentage of students meeting or surpassing grade level college readiness benchmarks on the SAT gives us a sense of how the school is performing towards this goal.

Percent of students at the academy who meet SAT College and Career Readiness (CCR) benchmarks

Comparative Achievement

The percentage of students meeting or surpassing grade level on-track benchmarks is compared to the school's Composite Resident District percentage. The percentage of students in the CRD is presented and can be compared to the percentage in the school. This illustrates to us how the school is performing in preparing students for college readiness compared to the schools where students would attend based on residency.

CRD - Percent of students who meet CCR benchmarks
