## SPRING 2022-23 ACADEMIC PERFORMANCE REPORT

### Overview

	2022-23
English Language Learner	10.8%
Special Education	18.8%
Free/Reduced Lunch	59.7%
Students of Color	59.3%
Enrolled 3 or More Years	59.8%

### Enrollment

### Where Students Come From

Assigned District	Students
Lincoln Park, School District of the City of	173
Taylor School District	162
Southgate Community School District	147
Wyandotte, School District of the City of	41
Allen Park Public Schools	40
Detroit Public Schools Community District	37
Ecorse Public Schools	37
Woodhaven-Brownstown School District	33
River Rouge, School District of the City of	30
Other	96

## SPRING 2022-23 ACADEMIC PERFORMANCE REPORT

### NWEA MAP Growth Assessment

#### Achievement

The 2020 NWEA national norms in mathematics and reading provide us with a benchmark for how students typically perform within grade level. The percent of students meeting national norms informs us of the proportion of students achieving at or above the 50th percentile (typical achievement). The primary achievement target in the Academy's Charter Contract is that at least 50% of students in grades 3-8 enrolled for at least one year earn assessment scores at or above their spring, grade-level, national norm. If the Academy has less than 50% of its students achieving at grade level, the Academy is expected to improve over time.

#### 2022-23 - Percent of Students Meeting Spring National Achievement Norms

#### Growth

A Conditional Growth Percentile (CGP), or simply Growth Percentile, is a student's percentile rank for growth among their academic peers. A CGP of 50 means that the student's growth was higher than 50 percent of their academic peers. At the school level, we aggregate this measure in two ways. First, the percentage of students with a CGP of 50 or greater is displayed. The second measure (Median Growth Percentile, MGP) identifies the midpoint of growth percentiles for students in the school. The primary growth target contained in the Charter Contract is that the Academy's MGP should be greater than or equal to 50. If the Academy fails to meet this target, then they are expected to show improvement over time.

#### 2022-23 - Percent of Students with a Fall-to-Spring Growth Percentile of 50 or Greater

#### 2022-23 - Fall-to-Spring Median Growth Percentile

## SPRING 2022-23 ACADEMIC PERFORMANCE REPORT

### Michigan Student Test of Educational Progress (M-STEP)

The Michigan Student Test of Educational Progress (M-STEP) is an assessment given during the spring of each school year. The state of Michigan requires that the Academy assess all students in grades 3-7 using the M-STEP in English Language Arts (ELA) and Mathematics. While the primary performance standards outlined in the Charter Contract do not contain expectations regarding state assessment performance, the M-STEP is still a consideration in the Charter Contract. For schools that do not meet the primary standards on the NWEA assessments in achievement and growth, the Center utilizes the M-STEP to compare each Academy's performance to traditional districts where students would otherwise attend if not enrolled at the Academy. The Center uses a weighted average to calculate the performance of a "composite district" representing all districts where students at the Academy would otherwise attend. This "district" is called the Composite Resident District (CRD).

### Achievement

M-STEP is the state of Michigan's summative assessment that measures how well students are mastering state academic standards. The proportion of students in the Academy who are either Advanced or Proficient shows us how well students achieve against the standards.

#### 2022-23 - Percent of Students Advanced or Proficient on M-STEP Mathematics and English Language Arts

### Comparative Achievement (CRD) - M-STEP

The percentage of advanced or proficient students is compared to the Academy's CRD percentage. This shows how the Academy is helping students master state standards compared to the schools they would attend based on residency. The metric presented displays the difference between the percentage of the Academy's students that meet the benchmark and the percentage of the CRD's students that meet the benchmark.

#### 2022-23 - Percent of Students Advanced or Proficient on M-STEP vs. CRD

## SPRING 2022-23 ACADEMIC PERFORMANCE REPORT

### State Assessment Student Growth Percentile (SGP)

Student Growth Percentiles (SGPs) on Michigan state assessments measure the progress of individual students over one or more years. Essentially, SGPs indicate how much a student has learned in a specific subject area compared to a group of peers who achieved a similar score on the previous test (or multiple previous tests) in that subject. While the primary benchmark for growth performance is the NWEA growth standard mentioned earlier, for schools that do not meet this standard the Center uses the mean student growth percentile on state assessments to assess the performance of a CMU school in comparison to their CRD.

#### Growth

The all grades, mean student growth percentile(SGP) of the Academy in Mathematics and ELA.

#### 2022-23 - Mean SGP on State Assessments in Mathematics and English Language Arts

Mathematics

48th

ELA

51st

#### Comparative Growth (CRD)

The mean SGP of the academy is compared to the mean SGP of their CRD. This shows how the Academy is helping students grow with respect to state standards compared to the schools they would attend based on residency. The metric displays the difference between the mean SPG of the Academy's students and the mean SGP of the CRD's students.

#### 2022-23 - Mean SGP on State Assessments vs. CRD
