stratix® | SmartMobile Education Technology

READY. SET. GO!

State of Michigan SmartMobile Education Program

On behalf of, Michigan Schools and Institutions of Higher Learning, Stratix has secured 30,000 HP Chromebook's with full service and support, for immediate purchase by, or on behalf of, Michigan schools.

Devices and connectivity are just the starting point, with Stratix' SmartMobile Education Technology program for the State of Michigan students also have the support services, device damage and repair coverage, and on-line safety and security they need to be successful. We are passionate about education and committed to powering today's students with technology that works right out-of-the-box and stays working.

Up to 30,000 HP Chromebook packages are currently available. Due to current high market demand for these devices, orders will be processed on a first-come, first-serve basis and fulfilled while supplies last. Depending on the level of interest, more devices may also be made available.

We understand the challenges with implementing a successful virtual learning environment:

Speed and Scale. Securing large volumes of devices and rapidly deploying is no easy task

Cost and Control. We understand that delicate balance to be struck, one that reduces budget risk and maintains a high degree of control & sustainability

Safety and Security. Providing online learning introduces new considerations for process and safeguards for students

Simplicity. Ease of use is paramount. We understand, from the first logon, the student experience must be the best

We proudly offer the State of Michigan SmartMobile Education Technology program with enhanced services in one, two or three-year options, as follows:

- HP Chromebook 11A G8 EE; A4-9120C APU (1.6 GHz, 1 MB L2 cache), 4 GB 1866 (on Mb), 32GB

- Staging, provisioning, G Suite enrollment and delivery of devices to the requested delivery address

- Accidental Damage Protection Extended Warranty

- Stratix lifecycle management warranty repair facilitation

- Stratix help desk services for Students, Parents & Guardians, including weekends

- G Suite License

- Bark for Schools on-line content monitoring and web filtering for student safety and security
