 - BigFuture and AP Potential

Digital SAT Suite of Assessments Overview

The SAT Suite of Assessments

Aligned Assessment System with CCR Benchmarks

- 75% likelihood of earning at least a C in a first-semester, credit-bearing college course in a related subject
- Overall college and career readiness is defined as achieving both section-level benchmarks on a given assessment.
- Grade-level benchmarks are based on expected student growth toward the SAT Benchmarks

	Gauge college readiness
	Identify strengths and weaknesses
	Strengthen academic programs
	Grade 8 Grade 9 Grade 10 Grade 11 SAT RW 390 410 430 460 480 MATH 430 450 480 510 530

Digital SAT: Reading and Writing Content

Content Domains

Skill/Knowledge Testing Points

Domain Description & Distribution

Craft and Structure

- Words in Context
- Text Structure and Purpose
- Cross-Text Connections

- Measures the comprehension, vocabulary, analysis, synthesis, and reasoning skills and knowledge needed to understand and use high-utility words and phrases in context, evaluate texts rhetorically, and make connections between topically related texts

≈28% / 13-15 questions

Information and Ideas

- Central Ideas and Details
- Command of Evidence
 - Textual
 - Quantitative
- Inferences

- Measures comprehension, analysis, and reasoning skills and knowledge and the ability to locate, interpret, evaluate, and integrate information and ideas from texts and informational graphics (tables, bar graphs, and line graphs)

≈26% / 12-14 questions

Standard English Conventions

- Boundaries
- Form, Structure, and Sense

- Measures the ability to edit texts to conform to core conventions of Standard English sentence structure, usage, and punctuation

≈26% / 11-15 questions

Expression of Ideas

- Rhetorical Synthesis
- Transitions

- Measures the ability to revise texts to improve the effectiveness of written expression and to meet specific rhetorical goals

≈20% / 8-12 questions

Sample Questions: NEW Digital SAT Suite

1

In the early 1800s, the Cherokee scholar Sequoyah created the first script, or writing system, for an Indigenous language in the United States. Because it represented the sounds of spoken Cherokee so accurately, his script was easy to learn and thus quickly achieved _____ use: by 1830, over 90 percent of the Cherokee people could read and write it.

Which choice completes the text with the most logical and precise word or phrase?

- A) widespread
- B) careful
- C) unintended
- D) infrequent

2

When Mexican-American archaeologist Zelia Maria Magdalena Nuttall published her 1886 research paper on sculptures found at the ancient Indigenous city of Teotihuacan in present-day Mexico, other researchers readily _____ her work as groundbreaking; this recognition stemmed from her convincing demonstration that the sculptures were much older than had previously been thought.

Which choice completes the text with the most logical and precise word or phrase?

- A) acknowledged
- B) ensured
- C) denied
- D) underestimated

25

Journalists have dubbed Gil Scott-Heron the “godfather of rap,” a title that has appeared in hundreds of articles about him since the 1990s. Scott-Heron himself resisted the godfather _____ feeling that it didn’t encapsulate his devotion to the broader African American blues music tradition as well as “bluesologist,” the moniker he preferred.

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) nickname, however
- B) nickname, however;
- C) nickname, however,
- D) nickname; however,

9

Utah is home to Pando, a colony of about 47,000 quaking aspen trees that all share a single root system. Pando is one of the largest single organisms by mass on Earth, but ecologists are worried that its growth is declining in part because of grazing by animals. The ecologists say that strong fences could prevent deer from eating young trees and help Pando start thriving again.

According to the text, why are ecologists worried about Pando?

- A) It isn’t growing at the same rate it used to.
- B) It isn’t producing young trees anymore.
- C) It can’t grow into new areas because it is blocked by fences.
- D) Its root system can’t support many more new trees.

Digital SAT: Math Content

Content Domains

Skill/Knowledge Testing Points

Domain Description & Distribution

Algebra

- Linear equations in one variable
- Linear equations in two variables
- Linear functions
- Systems of two linear equations in two variables
- Linear inequalities in one or two variables

Advanced Math

- Equivalent expressions
- Nonlinear equations in one variable and systems of equations in two variables
- Nonlinear functions

- Measures the ability to analyze, fluently solve, and create linear equations and inequalities as well as analyze and fluently solve equations and systems of equations using multiple techniques.

≈35% / 13-15 questions

- Measures skills and knowledge central for progression to more advanced math courses, including demonstrating an understanding of absolute value, quadratic, exponential, polynomial, rational, radical, and other nonlinear equations.

≈35% / 13-15 questions

Digital SAT: Math Content

Content Domains

Problem-Solving & Data Analysis

Geometry and Trigonometry

Skill/Knowledge Testing Points

- Ratios, rates, proportional relationships, and units
- Percentages
- One-variable data: distributions and measures of center and spread
- Two-variable data: models and scatterplots
- Probability and conditional probability
- Inference from sample statistics and margin of error
- Evaluating statistical claims: observational studies and experiments

- Area and volume
- Lines, angles, and triangles
- Right triangles and trigonometry
- Circles

Domain Description & Distribution

- Measures the ability to apply quantitative reasoning about ratios, rates, and proportional relationships; understand and apply unit rate; and analyze and interpret one- and two-variable data.
≈15% / 5-7 questions

- Measures the ability to solve problems that focus on area and volume; angles, triangles, and trigonometry; and circles (NOTE: PSAT 8/9 doesn't include trigonometry questions.)
≈15% / 5-7 questions

Math – Example Questions

Four Option Multiple Choice (75%)

Math question 6

Store A sells raspberries for \$5.50 per pint and blackberries for \$3.00 per pint. Store B sells raspberries for \$6.50 per pint and blackberries for \$8.00 per pint. A certain purchase of raspberries and blackberries would cost \$37.00 at store A or \$66.00 at store B. How many pints of blackberries are in this purchase?

- A) 12
- B) 8
- C) 5
- D) 4

Student-Produced Response (25%)

Math question 12

In the xy -plane, a line with equation $2y = 4.5$ intersects a parabola at exactly one point. If the parabola has equation $y = -4x^2 + bx$, where b is a positive constant, what is the value of b ?

We offer an array of tools and services to support your work in education. See the [College Board Professional](#) website for more information.

Getting Access to K-12 Assessment Reporting

1. Create a College Board Professional account **if you don't already have one** by visiting collegeboard.org.
 - Contact College Board's Account & Login Support at 877-922-6273 if you are having issues accessing your account.
2. Ensure your Professional Organization in your College Board account matches your current organization (school vs. district matters).
 - Watch this tutorial if you need help making a change.
3. Contact your organization's **Data Access Manager** to get assigned the appropriate level of access you need for your role.

K-12 Reporting Roles and Access

Data Access Manager (DAT)

Individuals with this role are able to assign reporting roles to colleagues—and themselves—so they can get scores in K-12 Assessment Reporting.

Having this role does NOT provide access to any reports. You will need to assign yourself one of the access roles.

Use the Managing Access tool to assign roles

Summary Reports

Provides access to summary data only, with no access to individual student information.

Detailed Reports

Provides access to summary data as well as data for individual students, including personally identifiable information. This role should be given only to staff authorized to see student-level results.

File Downloads

Provides access to the Raw Data Files For Your Systems page in Downloads. This role does not provide access to any reports.

K-12 Assessment Reporting - Dashboard and Reports

K-12 Assessment Reporting Dashboard

View reports for “All Students” (Summary)

The screenshot shows the K-12 Reporting Portal interface. At the top, there is a navigation bar with links for Reports, Downloads, and Help. A yellow arrow points to the 'Reports' link. Below the navigation bar, there is a search bar for 'Sample Institution' with fields for First Name, Last Name, Enrolled status, and a 'Search for Student' button. A yellow arrow points to the 'Search for Student' button. To the right of the search bar, there is a link to 'Access Raw Data Files (File Download) and Custom/Scheduled Reports (All)'. Further down, there is a section titled 'Reports' with two tabs: 'All Students' (selected) and 'Individual Students'. A yellow arrow points to the 'All Students' tab. To the right of this section, there is a callout box with the text 'View reports for “All Students” (Summary)'. Below the 'Reports' section, there are two main columns: 'Standard Reports' and 'Scheduled Reports'. The 'Standard Reports' column includes links for 'Performance by All Students', 'Performance by All Demographics', 'Knowledge and Skills', 'Question Analysis' (with a note: 'not available for digital administrations'), and 'Instructional Planning' (with a note: 'not available for digital administrations'). The 'Scheduled Reports' column includes a link for 'Growth'. At the bottom right of the page, there is a 'Live Chat' button.

Distribution of Overall Benchmark Performance Types by School, District, State, and All Testers

Distribution of Section Performance Levels by School, District, State, and All Testers

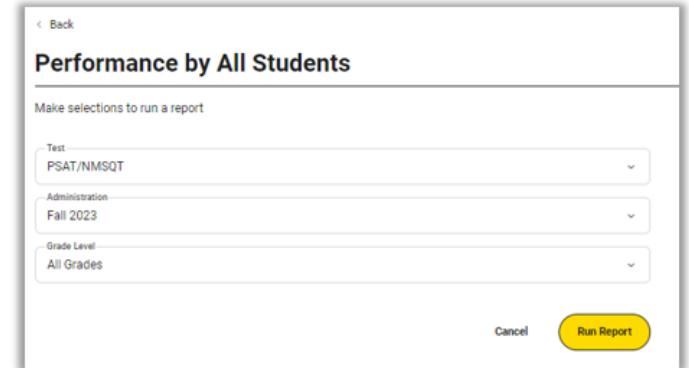

Performance by All Demographics (Summary)

These reports provide score performance, as well as performance against the College and Career Readiness benchmarks. You can view aggregate score performance for different demographic groups

The screenshot shows the K-12 Reporting Portal interface. At the top, there is a navigation bar with 'Reports', 'Downloads', 'Help', and a 'Run CLEP Report' button. Below the navigation bar, the text 'Sample Institution' is displayed. The main content area is titled 'K-12 Reports' and contains a sub-instruction: 'Enter a student's name and view their scores for completed test administrations in the SAT Suite of Assessments.' Below this, there are input fields for 'First Name', 'Last Name', a dropdown for 'Enrolled', and a 'Search for Student' button. The 'Reports' section is the next part of the interface, with tabs for 'All Students' (which is selected) and 'Individual Students'. Under the 'Standard Reports' heading, the 'Performance by All Students' report is listed. Under the 'Performance by All Demographics' report, the 'Performance by All Demographics' report is highlighted with a blue box. Other reports listed under 'Standard Reports' include 'Knowledge and Skills', 'Question Analysis' (not available for digital administrations), and 'Instructional Planning' (not available for digital administrations). Under the 'Scheduled Reports' heading, the 'Growth' report is listed. Under the 'BigFuture School and Connections' heading, the 'Engagement Report' and 'Connections Outreach Report' are listed.

Select the Institution, Test, Administration, Grade Level(s), and Demographic

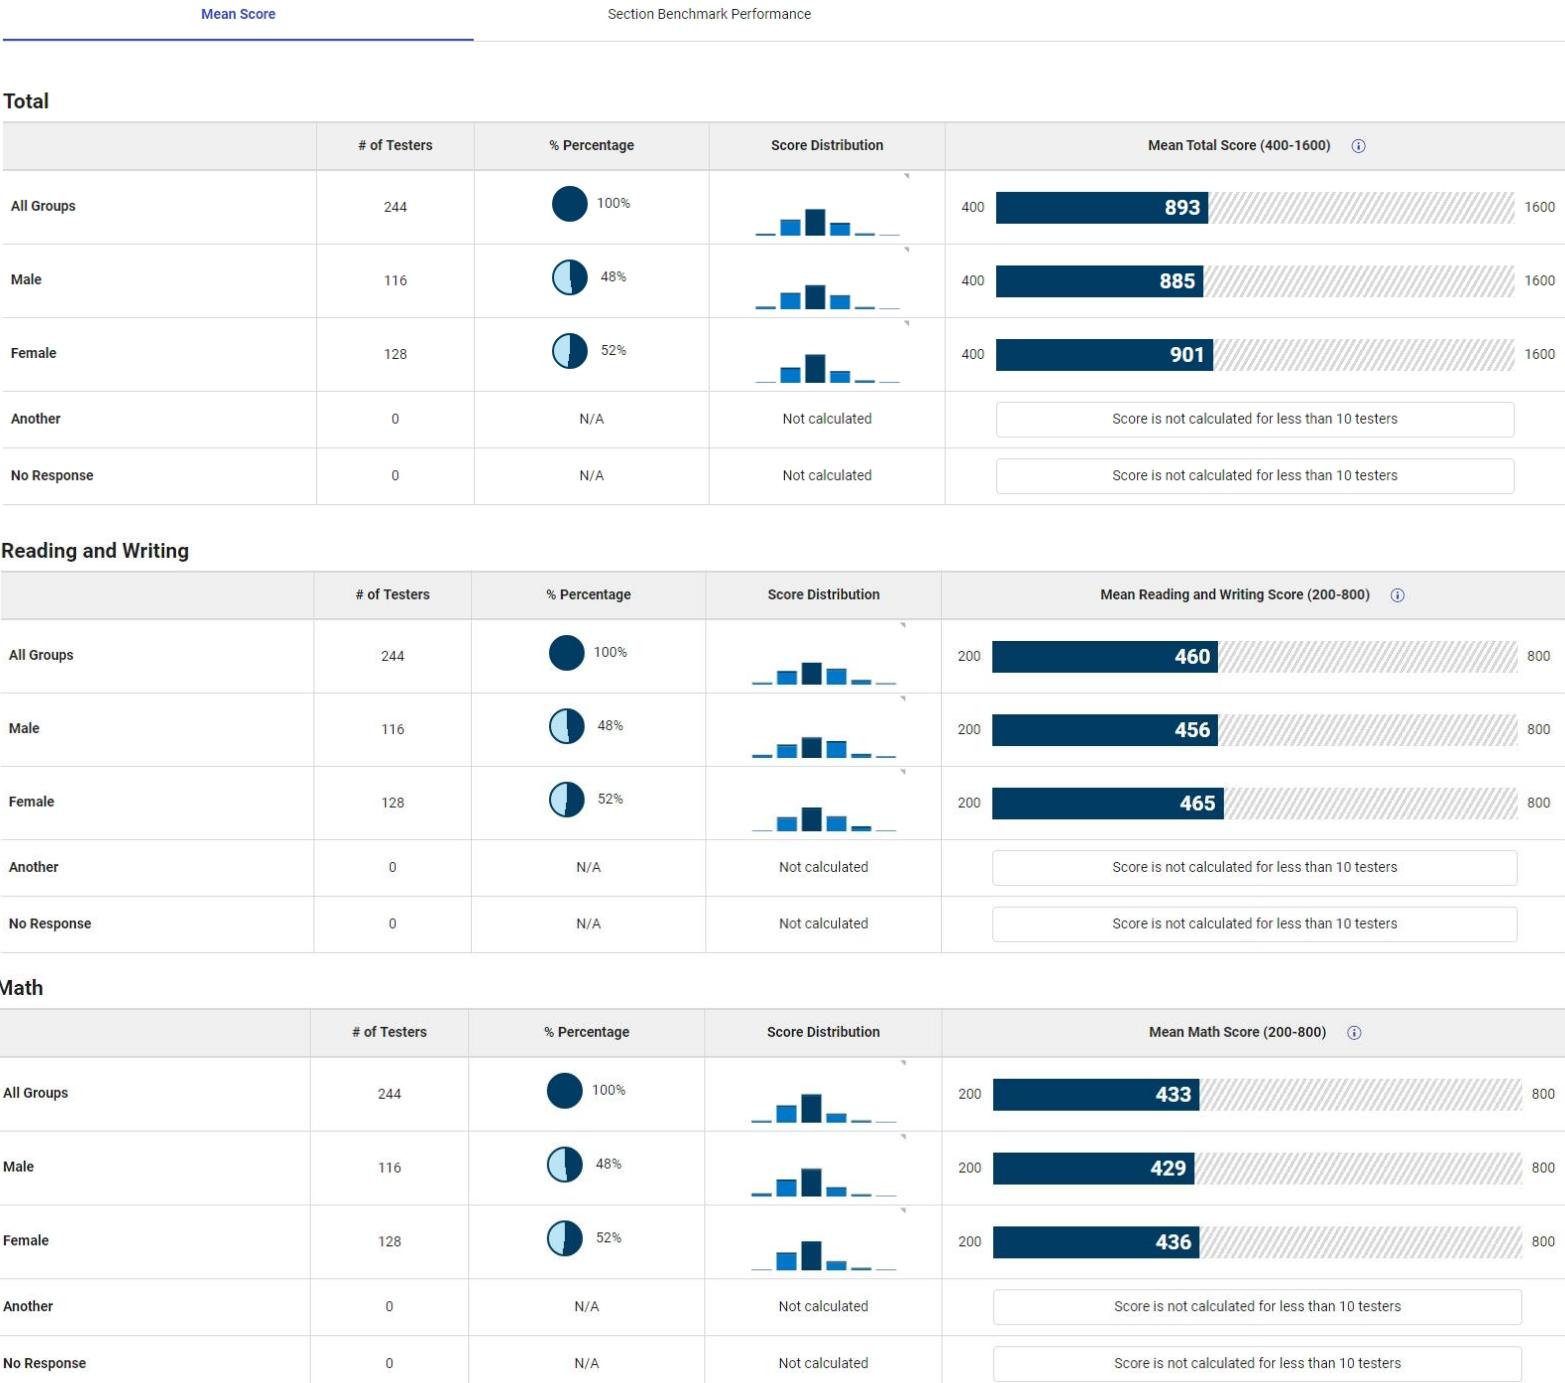

The screenshot shows a 'Performance by All Students' report configuration dialog box. At the top, there is a back button and a title 'Performance by All Students'. Below the title, there is a sub-instruction: 'Make selections to run a report'. The configuration area contains three dropdown menus: 'Test' (set to 'PSAT/NMSQT'), 'Administration' (set to 'Fall 2023'), and 'Grade Level' (set to 'All Grades'). At the bottom right of the dialog box are 'Cancel' and 'Run Report' buttons.

Knowledge and Skills (Summary)

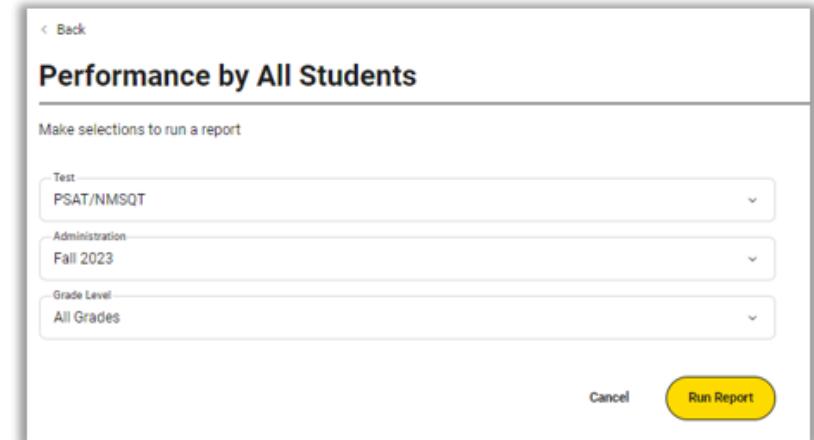

This report shows aggregate student performance across eight content domains in the Reading and Writing and Math sections. You'll See:

- Student performance across four content domains in Reading and Writing and four content domains in Math, aggregated across defined performance score bands.
- Aggregate knowledge and skill performance at your institution and for other groups of students.

The screenshot shows the K-12 Reporting Portal interface. At the top, there are buttons for 'Reports', 'Downloads', 'Help', and 'Run CLEP Report'. Below that is a header for 'Sample Institution'. The main area is titled 'K-12 Reports' and contains a search bar for 'First Name', 'Last Name', 'Enrolled', and a 'Search for Student' button. A note says 'Enter a student's name and view their scores for completed test administrations in the SAT Suite of Assessments.' Below this is a 'Reports' section with tabs for 'All Students' (selected) and 'Individual Students'. Under 'Standard Reports', the 'Knowledge and Skills' option is highlighted with a blue box. Other options include 'Performance by All Students' and 'Performance by All Demographics'. Under 'Scheduled Reports', there is an 'Engagement Report' and a 'Connections Outreach Report'. Under 'BigFuture School and Connections', there is a 'Growth' report. At the bottom, there are sections for 'Question Analysis' and 'Instructional Planning', both with a note: 'not available for digital administrations'.

Select the Institution, Test, Administration, and Grade Level(s)

The screenshot shows a report configuration dialog box. At the top, it says 'Performance by All Students' with a 'Back' button. Below that is a note: 'Make selections to run a report'. There are three dropdown menus: 'Test' (set to 'PSAT/NMSQT'), 'Administration' (set to 'Fall 2023'), and 'Grade Level' (set to 'All Grades'). At the bottom right are 'Cancel' and 'Run Report' buttons, with 'Run Report' being yellow.

Batch Score Reports (Detailed)

These reports generate individual student score report PDFs for students that completed a test administration. You can run this report for all testers that completed a test administration, or for specified grades.

Note: This is a scheduled report and will be delivered in Reports You Scheduled of Downloads within 24 hours for download.

The screenshot shows the K-12 Reporting Portal interface. At the top, there is a navigation bar with links for 'Reports', 'Downloads', and 'Help'. Below the navigation bar, the text 'Sample Institution' is displayed. The main content area is titled 'K-12 Reports' and contains a sub-instruction: 'Enter a student's name and view their scores for completed test administrations in the SAT Suite of Assessments.' Below this instruction are four input fields: 'First Name', 'Last Name', 'Enrolled' (a dropdown menu), and a 'Search for Student' button. The 'Reports' section is the next part of the interface. It has two tabs: 'All Students' and 'Individual Students', with 'Individual Students' being the active tab. Under 'Standard Reports', there is a 'Student Roster' link. Under 'Scheduled Reports', there is a 'Batch Score Reports' link, which is highlighted with a blue border. At the bottom of the 'Reports' section, there is a 'FAQ' link.

Example Question 1 +

Example Question 2 +

Skills Insight Tool

Which of the following systems of linear equations has no solution?

- A. $y = 6x + 3$
- B. $y = 10y = 10x + 10$
- C. $y = 14x + 14y = 10x + 14$
- D. $x = 3y = 10$

Key: A

Key Explanation

Choice A is correct. A system of two linear equations in two variables, x and y , has no solution if the graphs of the lines represented by the equations in the xy -plane are distinct and parallel. The graphs of two lines in the xy -plane represented by equations in slope-intercept form, $y = mx + b$, where m and b are constants, are parallel if their slopes, m , are the same and are distinct if their y -coordinates of the y -intercepts, b , are different. In the equations $y = 6x + 3$ and $y = 6x + 9$, the values of m are each 6, and the values of b are 3 and 9, respectively. Since the slopes of these lines are the same and the y -coordinates of the y -intercepts are different, it follows that the system of linear equations in choice A has no solution.

ID: bcb66188

Triangle FGH is similar to triangle JKL , where angle F corresponds to angle J and angles G and K are right angles. If $\sin(F) = \frac{308}{317}$, what is the value of $\sin(J)$?

- A. $\frac{76}{317}$
- B. $\frac{308}{317}$
- C. $\frac{317}{308}$
- D. $\frac{317}{76}$

ID: bcb66188 Answer

Correct Answer: B

Rationale

Choice B is correct. If two triangles are similar, then their corresponding angles are congruent. It's given that right triangle FGH is similar to right triangle JKL and angle F corresponds to angle J . It follows that angle F is congruent to angle J and, therefore, the measure of angle F is equal to the measure of angle J . The sine ratios of angles of equal measure are equal. Since the measure of angle F is equal to the measure of angle J , $\sin(F) = \sin(J)$. It's given that $\sin(F) = \frac{308}{317}$. Therefore, $\sin(J)$ is $\frac{308}{317}$.

Choice A is incorrect. This is the value of $\cos(J)$, not the value of $\sin(J)$.

Choice C is incorrect. This is the reciprocal of the value of $\sin(J)$, not the value of $\sin(J)$.

Choice D is incorrect. This is the reciprocal of the value of $\cos(J)$, not the value of $\sin(J)$.

Question Difficulty: Medium

Student Practice

Digital SAT Practice in Bluebook

Test Preview

A short set of untimed questions lets students experience digital testing and try out the tools. They won't receive scores or any feedback on their answers.

Full-Length Practice Test

Full-length practice tests are timed like a real test and include all the tools available to students on the actual tests. Students are also scored just as they would on the real thing.

My Practice

After completing the full-length practice test, students can sign in to **My Practice** to view their results.

- View practice score results and practice exam questions, answers, and explanations.
- Access progress bars representing knowledge of all the content domains on the test.
- Use practice test scores to filter questions in the Question Bank by domain, skill, and difficulty, allowing targeted practice in areas with the most opportunity to grow.
- Generate a set of Practice Specific Questions based on practice test results to provide additional review in the areas with the greatest opportunities for improvement.

Each practice question...

1

The following text is adapted from Amy Lowell's 1912 poem "Summer."

It is summer, glorious, deep-toned summer,
The very crown of nature's changing year
When all her surging life is at its full.
To me alone it is a time of pause,
A void and silent space between two worlds,
When inspiration lags, and feeling sleeps,
Gathering strength for efforts yet to come.

As used in the text, what does the phrase "a void" most nearly mean?

- A) A useless
- B) An empty
- C) A forgotten
- D) An incomplete

...includes an answer explanation

QUESTION 1

Choice B is the best answer because as used in the text, a span of time is described as "a void" space, which most nearly means an empty or vacant one. In the text, the speaker describes summertime in counterintuitive terms: although nature's "surging life is at its full" during the season, the speaker feels summer to be "a time of pause, / A void and silent space between two worlds." The speaker says further that during summer, "feeling sleeps / Gathering strength" for future efforts. Thus, the speaker regards summer as an empty stretch of time, to be followed by a period of greater activity.

Choice A is incorrect. Although the text does present summer as a time of inactivity, it doesn't characterize that inactivity as useless, or as having no purpose; in fact, the speaker regards summer as a time when "feeling" gathers "strength for efforts yet to come." **Choice C** is incorrect. Although the text characterizes summer as a time "when inspiration lags, and feeling sleeps," it doesn't discuss the season's relationship to the speaker's memory or suggest that summer can easily be forgotten. **Choice D** is incorrect. In some contexts, "void" can mean devoid of, or lacking, a particular element, and such a lack could be conceived of as incompleteness. However, the text doesn't portray summer as not being complete or whole; instead, it characterizes vacancy or inactivity as being an essential quality of the season, as experienced by the speaker.

AP Potential Not Yet Demonstrated

AP Art History

The AP Art History course is equivalent to a two-semester introductory college course that explores the nature of art, art making, and responses to art. By investigating specific course content of 250 works of art characterized by diverse artistic traditions from prehistory to the present, the course fosters in-depth, holistic understanding of the history of art from a global perspective. Students become active participants in the global art world, engaging with its forms and content. They experience, research, discuss, read, and write about art, artists, art making, responses to, and interpretations of art.

✗ Offered at Your School

[See Course Details ↗](#)

AP Biology

AP Biology is an introductory college-level biology course. Students cultivate their understanding of biology through inquiry-based investigations as they explore the following topics: evolution, cellular processes — energy and communication, genetics, information transfer, ecology, and interactions.

✗ Not Offered at Your School

[See Course Details ↗](#)

AP Calculus AB

AP Calculus AB is roughly equivalent to a first semester college calculus course devoted to topics in differential and integral calculus. The AP course covers topics in these areas, including concepts and skills of limits, derivatives, definite integrals, and the Fundamental Theorem of Calculus. The course teaches students to approach calculus concepts and problems when they are represented graphically, numerically, analytically, and verbally, and to make connections amongst these representations.

✗ Not Offered at Your School

[See Course Details ↗](#)

Students learn how to use technology to help solve problems, experiment, interpret results, and support conclusions.

About Test-taker Populations

You have chosen a test-taker population that is not included in the statistical calculations of AP Potential for one or more subjects that you've selected. To view a list of students in these grades, you must first acknowledge that including these students in your AP Potential rosters is generally not recommended. If you choose to use these data as a preliminary, first-step in identifying potential AP students, be sure to combine this information with other indicators of potential from your school or district.

[Do Not Select Test-Takers](#) [Continue with Selection](#)

1. Selecting 'All Grades' generates data for all students who took the selected exam and marked any of the following available responses on their answer sheets at the time they took the exam (as applicable): not yet in 6th grade, 6th grade, 7th grade, not yet in 8th grade, 8th grade, 9th grade, 10th grade, greater than 10th grade, 11th grade, 12th grade, other, and no response.

Keep in mind that while students with State-Approved Accommodations will appear in AP Potential, AP Potential was developed using data for students with College Board approved accommodations.

AP Potential for AP Art History, AP Computer Science Principles, AP European History, AP Human Geography, AP Seminar, and AP World History: Modern is fueled by correlations and expectancy tables that are based on the scores of 9th, 10th, and 11th grade PSAT/NMSQT and SAT test takers. For all other AP subjects, AP Potential is fueled by correlations and expectancy tables that are based on the scores of 10th and 11th grade PSAT/NMSQT and SAT test takers.

2. Although AP Potential is no longer reported for Calculus BC, students with AP Potential for Calculus AB who perform well in courses leading to Calculus may consider taking Calculus BC.

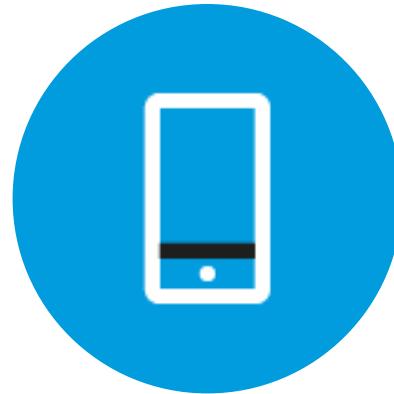

Similarly, although AP Potential is not reported for Physics 2, students with AP Potential for Physics 1 who perform well in recommended prerequisite courses for Physics 2 may consider taking this course. When making final course placement decisions, it is important to consider factors such as prior coursework, student interest, and motivation.

AP Potential is not yet available for AP Research, as more data are required for valid results. However, we recommend that educators use the prerequisites listed in the Course and Exam Descriptions (where applicable) as a guide to encourage students to enroll in these new courses.

FINANCIAL AID

How Does Financial Aid Work?

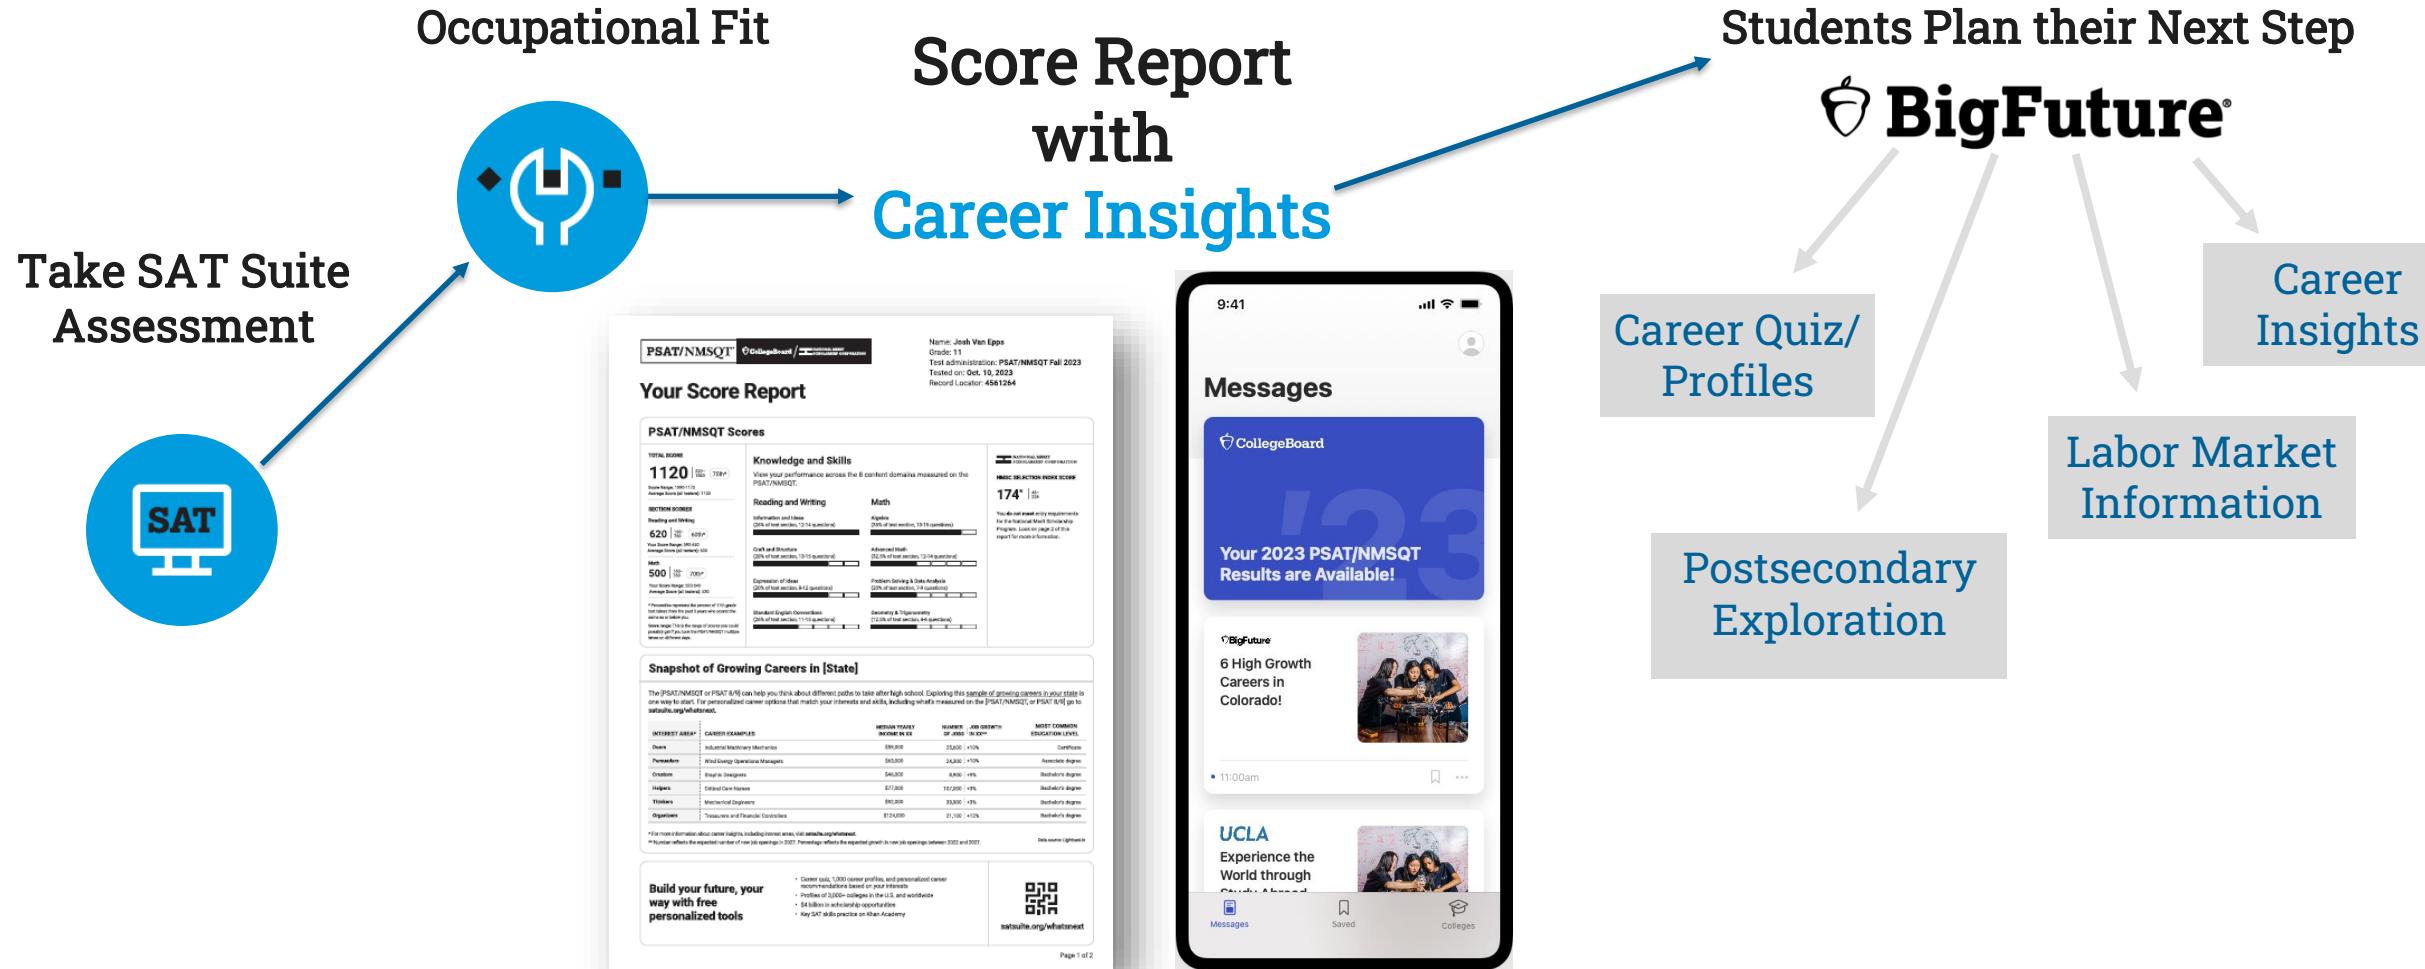

Billions of dollars of financial aid are available to students who need help paying for college. If you want this assistance, it's important that you determine your eligibility and apply on time.

Watch this 3-minute video about financial aid, scholarships, and the costs of college.
