

Attendee Worksheet

Trust Triangle

Which side of the triangle is “wobbly” for you?

What might you do to strengthen that side of the triangle?

What makes your program unique?

Identify 1-2 elements of your program that are key to meeting mission outcomes.

What are some indicators of success not captured in your accountability framework?

What are you measuring and why?

What data do you collect as evidence for this strategy’s success?

What additional data could you collect?

Is it easy to collect? Is it verifiable?

How can you connect this data to your mission-critical elements?

How can you take the reflections above to demonstrate programmatic success with stakeholders?

How do you share your data story with relevant stakeholders?

What new measures might you build with your stakeholders?
